Cardiovascular Diseases are a group of disorders of the heart and blood vessels which include: Heart attacks. Strokes are usually acute events and are mainly caused by a blockage that prevents blood from flowing to the heart or brain. The most common reason for this is a build-up of fatty deposits on the inner walls of the blood vessels that supply the heart or brain. Strokes can also be caused by bleeding from a blood vessel in the brain or from blood clots.

Journal of Cardiovascular Diseases & Diagnosis (JCDD) is an Open Access scientific journal which is peer-reviewed. It publishes the most exciting researches with respect to the subjects of cardiovascular diseases and their diagnostic applications. This is freely available online journal which will be soon available as a print.

Journal of Cardiovascular Diseases & Diagnosis not only helps researchers, clinicians and scientists, but also renders a link between Doctors, clinicians, pharmacologists and also the Medicine-business people who study health effects in populations. Journal of Cardiovascular Diseases & Diagnosis has a wide aspect in the field of health care & medical science education.

Journal of Cardiovascular Diseases & Diagnosis - Open Access uses online manuscript submission, review and tracking systems for quality and quick review processing. Submit your manuscript at http://www.omicsonline.org/submission/
